Dear Mr. Blumstein:

Exxon Research and Engineering Company is interested in pursuing discussions with the EPA concerning the clean-up efforts at the Picillo site. ER&E was scheduled to meet with the State of Rhode Island when the meeting was deferred as a result of the EPA issuing superfund letters. Hopefully both the state and federal efforts in this area will be coordinated.

Would you please provide the listing of parties who have received superfund letters.

Please contact me at the above phone number to arrange a meeting.

Sincerely,

D. Joseph Potvin
